

DYMO Label Software (DLS 4.2) for Windows 95 and NT ONLY

Platform

For use with Windows 95/NT.

Summary

- As Microsoft no longer supports either of these platforms this is the last version of DYMO Label Software to be tested on either of these. All known and supported issues have been resolved and no changes to this application can be made.

System Requirements

- 11.5 MB of hard disk space
- 8 MB of available RAM

Installation Instructions

1. If you do not know where your system will place the downloaded application, create a folder on your computer (i.e. c:/DYMOFILE)
2. Download the file to the folder you have chosen
3. Locate the **install.exe** file and double click it. Follow the on-line instructions
