

DYMO Label Software (DLS) Version 6.1.1 for Windows

Platform:

For use with Windows 98/ME/2000/XP

Features:

- Completely new user Interface

Summary of Changes:

- Automatic Software Updates
- Support for QuickBooks Professional 2002 through 2004
- Improved Address Book
- Smart Paste functionality
- Improved handling of label Templates
- Improved ACT! Add-in

System Requirements:

- 20 MB of hard disk space
- 8 MB of available RAM
- Open Serial or USB port
- CD ROM or Internet connectivity

Installation Instructions from Web download:

1. If you do not know where your system will place the downloaded application, create a folder on your computer (i.e. c:\DYMOFILE)
2. Download the file to the folder you have chosen
3. Locate the **DLS611_full.exe** file and double click it. Follow the on-screen instructions

Special Instructions and Important Notes:

- This version of software does not support Windows 95 or NT. If you are running either of these operating systems, please return to our Drivers and Downloads page and select ***DYMO Software Application version 4.2.1 for Windows 95 and NT ONLY***.
- This software only supports all XL, EL and 300 series printers through direct serial or USB connectivity. The use of serial to USB adapters is no longer supported.
