

DYMO Label Printer Drivers

Read Me — December 9, 2008

NEW IN THIS RELEASE

- Support for the LabelWriter 4XL printer

INSTALLATION

Running installer before plugging in printer

On Windows Vista, if you plug in the printer before running the installer, the Windows XP version of the printer driver may be installed. If this happens, you must delete this printer driver and then run the installer.

Connecting to Shared Printers

If you want to connect to a shared network printer, use the Windows Vista Add Printer Wizard in the Printer control panel to connect to the shared printer.

Administrator Rights

You must install these printer drivers from a user account with Administrator rights. However, you can use the printer while logged in to an account with Limited rights.

COMPATIBILITY

Printer Support

The label printers supported are as follows:

LabelWriter 4XL
